CPS+ eMarketplace benefits from the good reputation and reliability the CHINAPLAS brand has established among our customers.

Global Market Coverage

Connects suppliers and buyers from all over the world.

Close to Market

We stay constantly attuned to market trends, remain aligned with market demands, and respond swiftly to changes.

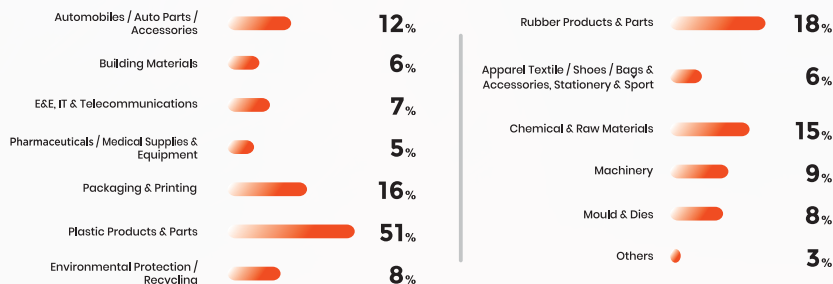

Reaching Buyers from 200+ countries and regions

*Statistics of year 2025

Serving Buyers from 20+ Industries*

* Buyers may involve in more than one industry

Enjoy High-quality Business Matching Service

Sourcing Request Samples

Buyer from China

"We are seeking a PET bottle sorting line, specifically equipment capable of sorting by material and color."

Buyer from Mexico

"We are seeking high-quality, cost-effective raw materials for PP raffia woven fertilizer bags, including PP resin and filler, color, and functional masterbatches. We prioritize experienced suppliers in industrial or agricultural packaging who can ensure consistent quality for tape extrusion, weaving, and bag production."

Buyer from Brazil

"We are seeking high-impact ABS and PC/ABS alloy materials specifically for helmet manufacturing. To facilitate our technical evaluation, please provide Technical Data Sheets (TDS) for suitable grades, including detailed mechanical properties, impact strength, UV resistance, and processing recommendations."

Buyer from South Africa

"We need to procure 20 tons of Decabromodiphenyl Ethane (DBDPE) with a total bromine content of ≥81.5% for rubber processing. Specifications: 25 kg bags, palletized, loaded in 20ft or 40ft full containers. Target market: Middle East and North Africa (MENA) region."

"I'm looking for food-grade fully recyclable PET portion boxes, PET plastic lids that securely snap onto boxes, sleeve packaging, outer display boxes, etc."

Buyer from United Kingdom

"I am seeking monthly supplies of up to 300 tons of recycled materials, including semi-transparent or white PIR/PCR (MFI 0.31) and LDPE natural-color pellets (Codes 170407 and 170408). The LDPE must be suitable for shrink film extrusion with an MFR of 0.3–0.9 g/10min."

Buyers' Compliments

"CPS+ eMarketplace streamlines initial outreach and fosters long-term collaboration as your business grows, providing real-time updates on the latest supplier developments."

#medical consumables company

"The CPS+ eMarketplace team's efficient and attentive matchmaking helped us quickly identify innovative suppliers, accelerating our packaging R&D and the implementation of new solutions."

#electrical appliance manufacturer

"CPS+ eMarketplace offers easy access to rubber and plastics resources alongside efficient supply-demand matching, making it the premier platform for business collaboration."

#packaging materials company

Suppliers' Compliments

"The platform is highly effective for gathering pre-show customer insights. It significantly enhances our targeted outreach at exhibitions and provides exceptional value for exploring new market opportunities."

"CPS+ eMarketplace serves as a precise and efficient bridge between suppliers and global buyers. It has evolved from a digital sourcing tool into an indispensable strategic link for the entire industry."

"CPS+ eMarketplace is a perfect bridge between equipment enterprises and clients, offering a seamless online platform that ensures convenient, easy, and accurate interactions."
