

免喷涂色母

免喷涂材料是一种自带特殊金属色彩效果的新型塑料材料。其特点金属感强，免去了喷涂的工艺，就没有喷涂所产生的环境污染，并极大的节省了制作成本。彩健公司研发的免喷涂塑料材料已成功应用于家用电器外壳、汽车部件、吹瓶、型材、板材等领域。色彩丰富，环保，低成本的特点、掀起了塑胶产业新的革命。

Free-spraying special masterbatch is a kind of bring special metal color effect of the new plastic [material](#). Its characteristic strong metal feeling, revoke the spraying process, there is no spray produced by the environmental pollution, and greatly save the production cost.

Caijian company research and development of free spray plastic masterbatch has been successfully applied to household appliances shell, auto parts, bottle blowing, molding, plate, etc. The characteristics of rich colors, environmental protection, low cost and plastic industry caused a new revolution.

免喷涂常用材质

Non-spraying common materials

PP

ABS

PC

ABS/PC

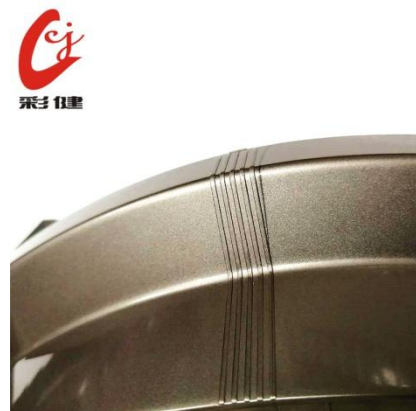

AS

优点：高光泽，金属效果、彩色绚丽 易成型、耐刮擦、可回收透明、流动性好、
Advantages: high gloss, metal effect, colour and gorgeousness, easy to shape, scratch resistance, recyclable transparency, good liquidity,

应用：家电外壳、汽车配件手机壳电子电器部件、家电外壳空调部件
Application: household appliances shell, automobile accessories mobile phone shell
Electronic and electrical components, household appliances shell , Air conditioning component

PP
蓝色手机壳

ABS+PC
土豪金电饭锅外壳

ABS
冰川银冰箱装饰条

大理纹色母

ABS 大理纹色母粒

主要优势：极大的增加了产品的高档感和附加值。

大理纹色母

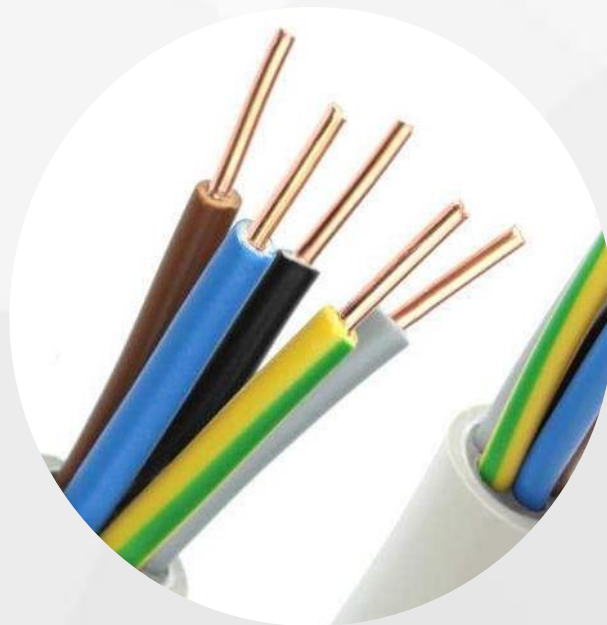

PP大理纹色母粒

出口美国的红酒架，通过FDA检测。

无卤电线、电缆色母

No halogen wire and cable masterbatch

低烟无卤电线色母，原材料全部通过SGS环保无卤检测，达到国际无卤环保要求（JB/T 10491-2004），颜色齐全、品种丰富，耐候耐迁移。

Low smoke no halogen wire masterbatch, all raw materials through the SGS environmental protection test (JB/T 10491-2004), reached the international halogen-free environmental requirements, full color, variety, weather proof and migration

FDA 食品级色母

FDA food grade masterbatch

食品级色母符合美国FDA和欧盟食品环保标准.食品级色母可满足出口相关要求标准. 广泛用于儿童用品,食品包装,厨房用品等塑胶制品中.

Food grade masterbatch: FDA with the United States and EU food environmental standards. Food grade masterbatch can meet the requirements of export related standards. Widely used in children's products, food packaging, kitchen supplies and other plastic products.
