

板片材模具

PVC board/sheet die

WPC建筑模板
PVC结皮发泡板
PVC木塑板
PVC硬板、片材
PE、PP高填充板
SPC室内地板
WPC室内地板

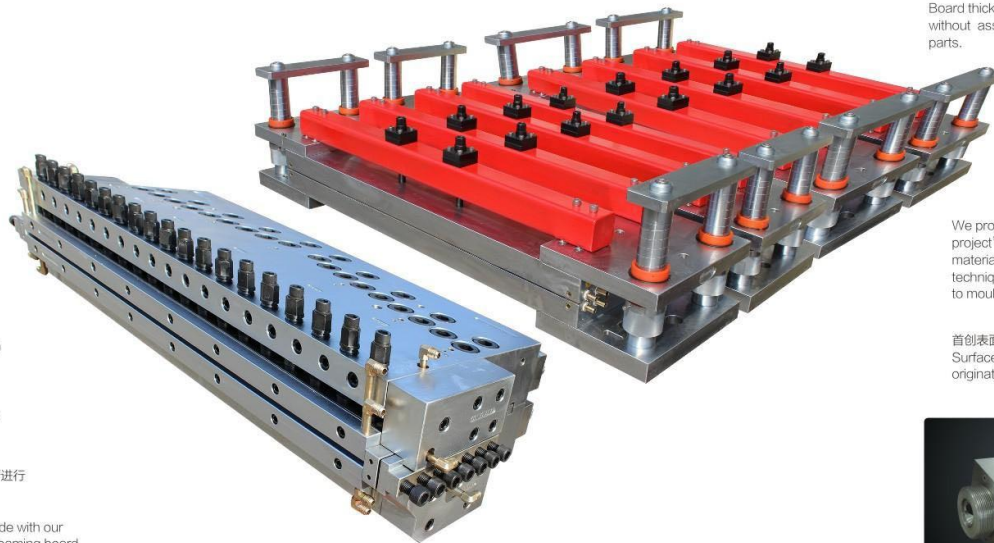

WPC construction formwork
PVC board with foaming and celuca
PVC board WPC board
Rigid PVC board and sheet
PE, PP with high calcium board
SPC indoor floor
WPC indoor floor

衣架式流道设计使物料流量均匀，适合于各种不同配方。

The "T" runner design makes material flow even and is suitable for various kinds of formula.

独家拥有国内发泡板材模具调试生产线，不断进行研发和改进。

R&D and improvement are constantly made with our exclusive testing production line of WPC foaming board in China.

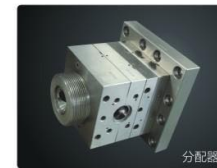

可实现在线调节板材厚度，无须更换部件。

Board thickness can be adjusted on-line without assemble and disassemble the parts.

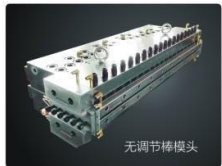

为客户从材料配方，操作技术、设备选型、模具技术等方面提供“交钥匙”工程。

We provide the "turn-key project" for the clients from material formula, operation technique, extruder type selection to mould technique.

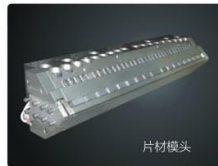

首创表面结皮技术取得国家专利。Surface crusting technique was originated by us and patented.

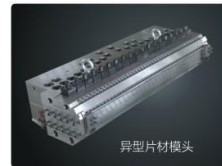

分配器

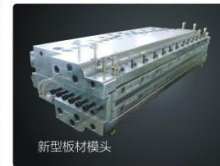

无调节棒模头

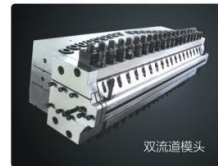

片材模头

异型片材模头

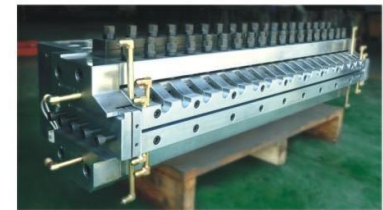

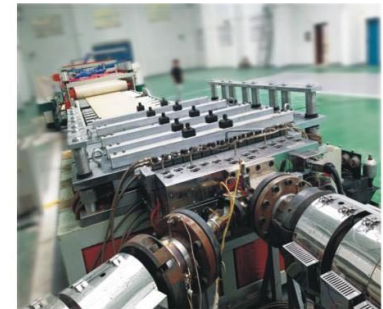

新型板材模头

双流道模头

双流道水冷模头

板片材模具的应用

Application of PVC Plate/Plate Mould

橱柜板、建筑模板、家具板材、卫生洁具柜板、SPC室内地板、WPC室内地板等
Cabinet plates, construction formworks, furniture boards.
SPC indoor floor,WPC indoor floor, etc
