

塑料异型材模具

Mould for UPVC profiles

PVC塑钢门、窗、护栏。
PVC软硬共挤；PMMA、ASA等材料多色共挤；发泡共挤等。
PVC线槽、线管、通讯管材；一模多腔管材；发泡管；缠绕管、板带等。

PVC door and window, handrail
PVC rigid/flexible co-extrusion, PMMA, ASA multi-color co-extrusion, foaming co-extrusion
PVC trunking, cable pipe, multi-cavity pipe, foaming pipe, unwind pipe, etc.

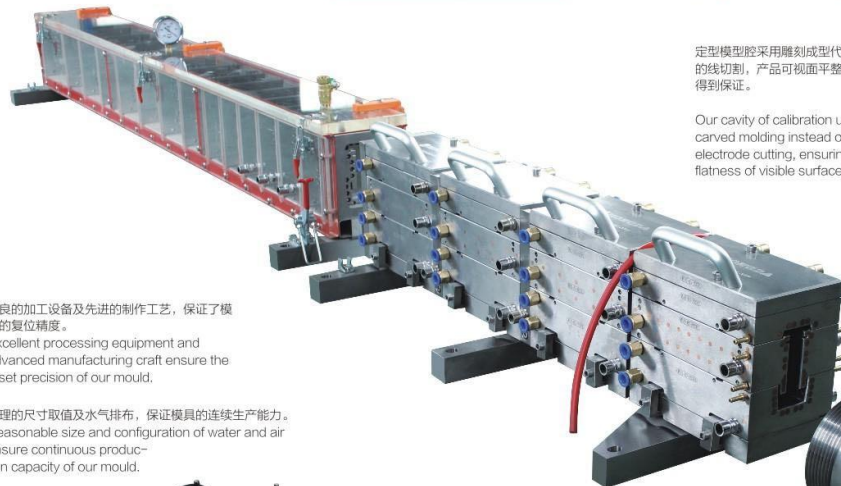

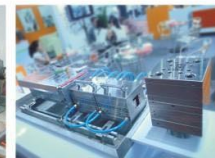

每年近千套的模具制作经验，经过不断改进使模具能适应多种配方及不同的设备。

We have manufacturing experience of a thousand of moulds every year. Through constant improvement, our mould are adapted to various formulas and different equipment.

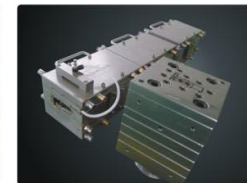

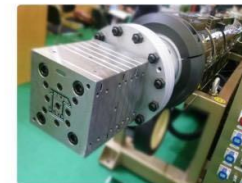

精良的加工设备及先进的制作工艺，保证了模具的复位精度。
Excellent processing equipment and advanced manufacturing craft ensure the reset precision of our mould.

合理的尺寸取值及水气排布，保证模具的连续生产能力。
Reasonable size and configuration of water and air ensure continuous production capacity of our mould.

定型模型腔采用雕刻成型代替传统的线切割，产品可视面平整度更能得到保证。

Our cavity of calibration uses carved molding instead of wire-electrode cutting, ensuring the flatness of visible surface.

独特的定位装置保证复位精度

The unique positioning device guarantee the reset precision

特制紧固件保护装置

Specially-made fastener protector

塑料异型材模具的应用

Mould for UPVC profiles

平开门、窗；推拉门、窗；百叶窗、中悬窗；塑钢彩色门、窗；护栏；线槽线管；家具、卫浴柜等。
Flat door, window; sliding door, window; shutter, middle suspension window; plastic colored door, window; guardrail; line slotted tube; furniture, bathroom cabinet, etc.
