

PP·PE 木塑模具

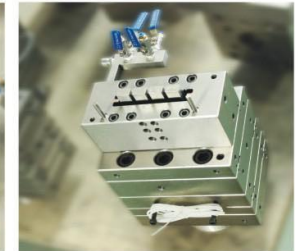

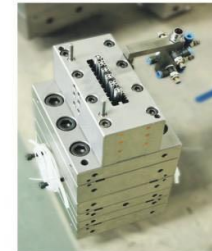

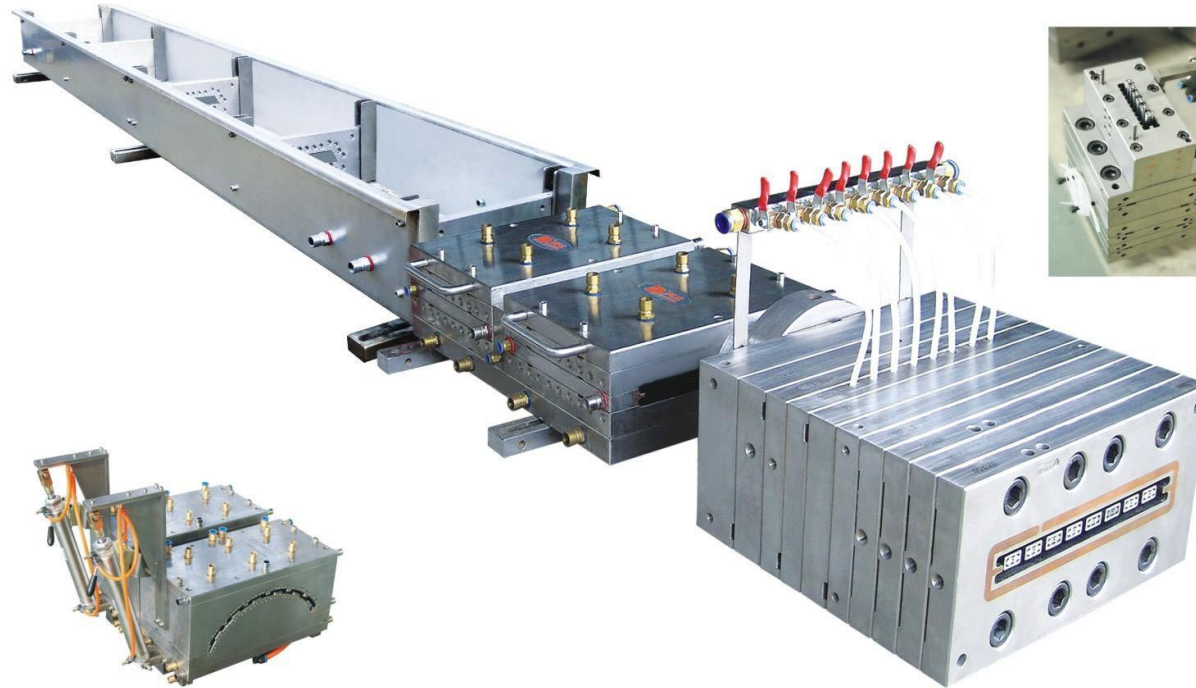

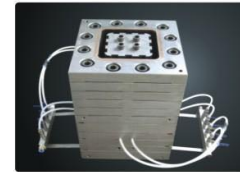

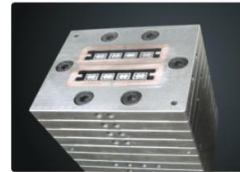

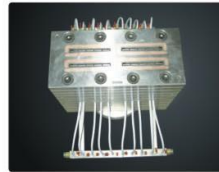

Mould for PE WPC and PP WPC

PE + 木粉
PP + 木粉
PP、PE发泡；内外结皮；共挤发泡等

PE+wood powder
PP+wood powder
PP, PE foaming, celuca out/inside, foaming co-extrusion

模具先进的冷却系统设计，保证冷却效果的同时，能方便快捷的更换水管及清理水路。

The advanced cooling system design of mould not only ensures the cooling effect but also makes it convenient to change water pipes and clear the waterway.

独特的定位装置保证复位精度
The unique positioning device guarantee the reset precision

特制紧固件保护装置
Specially-made fastener protector

独特的芯棒耐磨处理技术，有效提高模具的耐磨性能。
The unique anti-wear treatment of core rod effectively improve wear-resisting property of the mold.

PP·PE 木塑模具的应用

The application of wupe, wupp tooling

园林景观、凉亭、护栏、栈道板、葡萄架、工业托盘、门板、建筑装饰板材、家具板等。

Landscape, pavilion, handrail, decking profile, grape trellis, industrial pallets, door panel, decoration board, furniture board, etc
