

PVC木塑、发泡模具

Mould for PVC WPC and foaming products

PVC + 木粉
PVC发泡
PS发泡

PVC+wood powder
PVC foaming
PS foaming

在不更改模具的前提下，通过调整配方，可获得不同密度的制品。

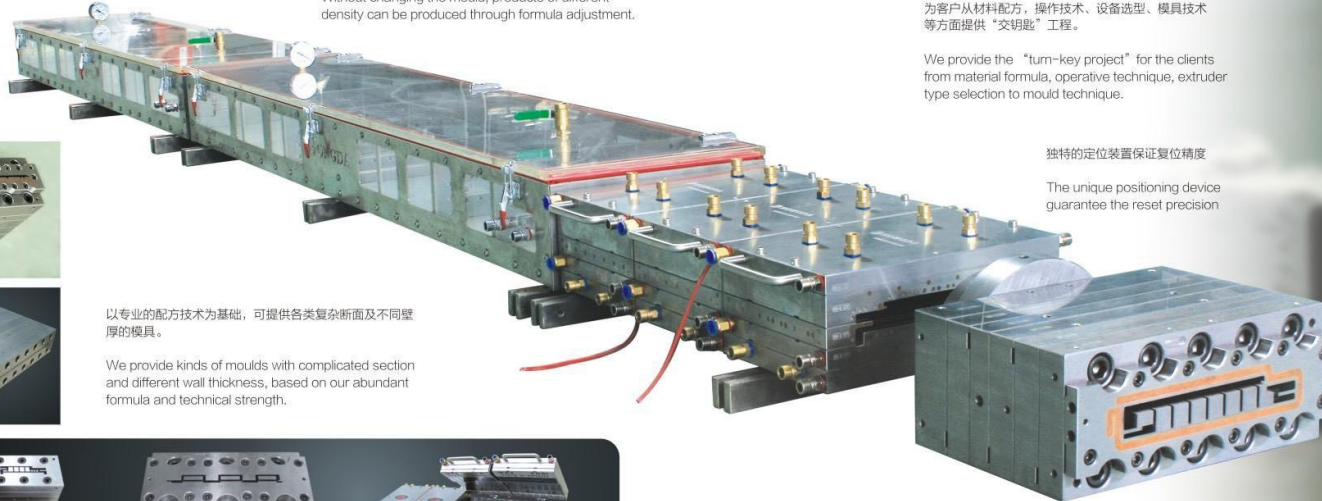

Without changing the mould, products of different density can be produced through formula adjustment.

为客户从材料配方，操作技术、设备选型、模具技术等方面提供“交钥匙”工程。

We provide the "turn-key project" for the clients from material formula, operative technique, extruder type selection to mould technique.

独特的定位装置保证复位精度

The unique positioning device guarantee the reset precision

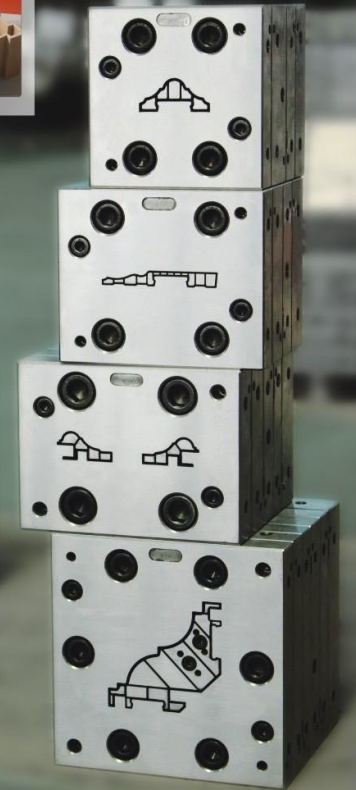

以专业的配方技术为基础，可提供各类复杂断面及不同壁厚的模具。

We provide kinds of moulds with complicated section and different wall thickness, based on our abundant formula and technical strength.

特制紧固件保护装置

Specially-made fastener protector

建筑装饰门框、线条、仿木地板、发泡百叶窗、吊顶材料、镜框、室内楼梯、扶手、护墙板、全屋整装材料等。

Door frame, lines, imitation wood floors, foamed blinds, ceiling materials, mirror frames, indoor stairs, handrails, wall panels, whole house materials.etc.

PVC木塑、发泡模具的应用

The application of upvc and foam tooling
