

河北科澳塑胶有限公司

环保钙锌稳定剂 KA 系列产品目录

应用	型号	特点	应用
型材 profilés	KA-101	初期着色好，热稳定性优，内外润滑平衡，特别适合户外使用的制品。 Good initial coloring, excellent thermal stability, internal and external lubrication balance, especially suitable for outdoor use of products.	PVC 门窗异型材、护栏型材等。 PVC doors and Windows profile, guardrail profile, etc
	KA-103	热稳定性能良好，内外润滑平衡，加工性好，适合低发泡型材使用。 Good thermal stability, internal and external lubrication balance, good workability, suitable for low foaming profiles.	PVC 发泡型材等 PVC foam profile, etc
	KA-105	热稳定性能优异，初期着色性好，内外润滑平衡，特别适合户外使用的制品。 Excellent thermal stability, good initial coloring, internal and external lubrication balance, especially suitable for outdoor use of products	PVC 门窗异型材、护栏型材等。 PVC doors and Windows profile, guardrail profile, etc
发泡板 Foam board	KA-601	热稳定性能优异，初期着色性好，内外润滑平衡，发泡效果好。 Excellent thermal stability, good initial coloring, internal and external lubrication balance, good foaming effect	PVC 微发泡板等 Foam board
	KA-605	热稳定性能优异，初期着色性好，内外润滑平衡，发泡效果好，连续生产周期长。 Excellent thermal stability, good initial coloring, internal and external lubrication balance, good foaming effect, long continuous production cycle	PVC 发泡板等 Foam board
	KA-608	热稳定性能良好，内外润滑平衡，加工性好，适合低发泡型材使用。 Good thermal stability, internal and external lubrication balance, good workability, suitable for low foaming profiles.	PVC 排水管、穿线管等 PVC drain pipe, threading pipe, etc
	KA-720	热稳定性能，发泡性能，加工性能优异，性价比高。 Heat stability, foaming performance, excellent processing performance, cost-effective.	发泡木饰面板等 Foamed wood veneer, etc
